GENERAL MEETING

Wednesday
March 16th
7:30 PM

The Club Meeting for this month will be held at **Wellesley College, in the Science Center in, Room 277** (See back for directions)

.

Bring a friend or just come alone.

Table of Contents

Speaker Gordon Johnson 2
President's letter 2
Treasurer's report 3
Feb General Meeting Minutes 4
General Informaton 9
2011 CRRC Membership Application 10
Map & Directions! 11

RAFFLE

First Prize

Tower Hobbies Great Planes EP Falcon ARF

Second Prize

Syma S107 Heli

Speaker Gordon Johnson

Gordon will talk about his experiments over the past couple of years with very light indoor planes constructed using laser cut foam skeletons. Planes he will bring and show include his 11 inch 18 gram blue Fokker stunt triplane, his 16 inch 26 gram red slow flyer Fokker Triplane, and his 18-inch 19 gram "Airbender" aerobatic plane. He will bring a few other examples of his "skeletonized" planes as well. Gordon is a member of CRRC and also the Boston Micronauts. He organized the NEAT indoor night for several years and is a regular presenter at the NEAT and now KIEF (Keystone Indoor Electric Fly) micro seminars. He has also written numerous articles on micro RC topics for RC Micro World and its predecessor publication RC Microflight.

President's Letter

That was a relatively balmy weather for the last few days. It looks like spring is almost here. Oops! Probably jinxed it by saying that. There is still April 1st to get past. (Do you remember the storm of 1997?) Anyway, time to dust off those models sitting in the basement/garage, tune up the engines, and check your lipos - you did have your lipos at storage charge level over the winter, didn't you?

Also, I hope your winter projects are going well. My projects? … Ummm, well, I still have more than a month left.

BOD Meeting

The members of the Board-of-Directors met via Skype again on February 23rd. The main topic was the schedule of events for the rest of the year. We have another full season of events. Watch for the updates to the calendar on the CRRC website.

Spring Float-Fly

Our annual Spring Float-Fly is scheduled for May 21 and 22nd. Unfortunately, Ruane will not be able to CD the spring event. I am in the process of completing my contest director application (I just fulfilled my 3 year AMA membership requirement as of February), so I plan on being the CD for the float-fly; however, if anyone would like to be the CD for the float-fly, let me know.

March Meeting Location

The BOD would like to thank Tom Bauer for arranging a meeting location for the March meeting. It will be held in Room 227 in the Science Center at Wellesly College. I want to remind everyone that this month is not the Winter Projects Night as in the past. The Winter Projects Night will be in April at our usual meeting location at Goodnow Library.

Since the weather hasn't been that great for flying, I'd like to remind everyone to be safe in their workshops with your tools and working with your lipo batteries. Don't leave your batteries alone while they are being charged!

– John Eppling
CRRC President

Treasurer's Reports

February Report Date 03/10/11

Starting Balance 02/01/11	
Checking	$5,571.09
Cash Box	$25.00
PayPal Acct	$362.69
CD Accounts	$6,849.01
Total Starting	**$12,807.79**
Income - CDs	
Interest Feb.	$3.51

Total Expenses	**$895.70**
Ending Balances	
Checking	$4,727.39
Cash Box	$25.00
PayPal Acct	$362.69
CD Accounts	$6,852.52
Grand Total Ending 02/29/11	**$11,967.60**

– Richard Roy, Treasurer

February General Meeting Minutes

Business Meeting

The treasurer's report and meeting minutes were approved as written in the February newsletter.

Field Reports

Dick Williamson reported on an ongoing discussion concerning the future of Davis Field. The sandpit on the north side of Rte 117, not far from Davis Field, had been proposed as a recreation facility, with funding support from the Community Preservation Act (CPA). Sudbury town leadership turned down this proposal. CPA funds had been restricted to developing new sites, and not maintaining existing facilities. However, a proposed CPA rule change would permit funds to be used to maintain and improve existing facilities. Davis Field would once again become a prime target for improvements that could be counterproductive to CRRC's use as a flying site.

Membership Report

Ray Harlan reports our membership roster stands at 60.

Board of Director's Meeting

Next Tuesday's BOD meeting will be held as an online Skype conference. Wayne MacKeil will join in as member at large.

Old Business

None

New Business

We need to start thinking about sending AMA Sanction requests for 2011 contest dates. This will be addressed in March.

The March 16th CRRC general meeting will be held at Wellesley College, following confirmation by Tom Bauer. Goodnow Library's community room is scheduled for their annual March book sale.

Winter Project Night will be held at the April meeting in Goodnow Library. Hobby Town gift certificates will be awarded in four categories, so bring what you build for show and tell this April!

Dick Williamson is investing in a bulk buy of Altitude Limiters for a proposed Altitude Limited E-Sailplane contest.

The AMA is requesting contest information from member clubs in support of the AMA – FAA UAV initiative. Look to Model Aviation magazine for more information.

New Wings

None reported

Guests

Rob Pease from Sudbury was our guest this evening. Rob has been flying a Parkzone MicroCub and is interested in joining CRRC.

The business meeting closed at 7:58 PM.

Raffle

First prize raffle winner Fritz Bien took home an EPP Extra foamy from 3D HobbyShop. This plane has become quite popular among a number of our members recently. Michael Kolk took home second prize, a 25 piece mini toolset

Show and Tell

Tom Bauer is building an A20 Havoc twin engine bomber from Dare Engineering. This is a balsa stick built kit. Tom has had some difficulty with proper fit of the supplied engine nacelles, and has had to fabricate his own.

Fritz Bien has completed a 1937 Golden Age Reproduction, Peerless Model Airplane Company Aeronca J2. This is a rubber powered free-flight model that will weigh in at 27 grams.

Wayne MacKeil was the lucky online contest winner of a FlyZone Switch foamy. This is a ready to fly model that comes with a wing mount that accommodates either a high or low mounted wing. The plane weighs 2 ½ pounds, with a 30Amp ESC and outrunner. Wayne also showed us his Night Vapor, a 3-channel, lightweight indoor flyer that comes equipped with LEDs for night flying.

Evan Haddington is ready to join ranks of DLG with an entry level DL50 from Mountain Models. Evan chose this model because there are numerous build threads online.

Daniel Sullivan had two indoor slow flyers to show, a toy foamy micro biplane, and a single wing foamy with 900 MHz Planco RC gear. Dan reports that the single wing plane is a good flier.

Istvan Sleder is building an Alula RC glider. Istvan used a home built hot wire cutter to fabricate the wing cores. The tail section is made from a super market meat tray. The Alula has had a successful hand toss flight, and is ready to hit the slopes

Tony Davids displayed a new 1.4 meter Durafly Spitfire from HobbyKing. This is an almost ready to fly foamy with a 600-watt outrunner and retracts. Tony needs to add a 40Amp ESC, 3S battery and radio to get it airborne.

Sky Andrew had a collection of old time glow and diesel engines and propellers for show and tell. He also had a very old stick and tissue model of a Jenny biplane in need of repair.

Evening Program

Wes Liu, President of the International Aerobatic Club Chapter 35 (IAC 35), gave us an informative presentation on the sport of aerobatic flying. Wes was accompanied by IAC 35's vice president Farrell Woods. The IAC is a division of the Experimental Aerobatic Association. Their membership includes pilots from all avocations; the common bond is that they all have a passion for flying airplanes. IAC 35 holds an annual Green Mountain Aerobatic Contest in Springfield, VT, each July. The competition is based on a series of flight programs that are documented in an Aresti Catalog, which is the standard language used by aerobatic pilots. During a typical 3-day contest weekend, a pilot would normally expect to compete in three heats of four minutes duration, for a total time of 12 minutes. To paraphrase Wes, "who in their right mind would push an airplane worth up to $400,000, to its limits, for 12 minutes of flying time all to win a $20 medal?" Wes augmented his talk with photos and an in-flight video taken of one of their pilots performing competition maneuvers. The g-forces experienced by the pilot were very evident by watching his facial expressions.

CRRC BUILDING AND FLIGHT INSTRUCTORS

To start your flight instruction; please call our chief instructor:

Richard (Dick) Williamson
978-618-5475

Dick will match you with one club instructors. Our instructors are qualified and willing AMA pilots and fellow club members.

See http://www.charlesriverrc.org for directions to the flying fields. If you have any questions about the construction of your airplane, or want to have an experienced pilot pre-flight check your airplane before heading to the flying field, then call Brian or any of the building instructors.

NOTICE: THIS MONTH CRRC CLUB MEETING
Guests are welcome!

When: ***Wednesday March 17th, 2010 (3nd Wednesday)***
Note: Check for the meeting announcement in our monthly Newsletter.

Time: ***7:00 p.m.***

Where: ***Wellesley College, Science Center, Room 277***

Directions: ***Drive to Wellesley College, 106 Central St, Wellesley, MA***
Enter at either Rt. 16 or 135 entrances. Follow path below to Science Center.

More info on next page…

NOTICE: THIS MONTH CRRC CLUB MEETING

Below is a detailed map of the Science Center showing the unusual traffic flow around and through Gray Lot. Please don't turn the corner to the observatory entrance as students maybe observing if it is clear out. Park in any of the hatched areas. You may drop off items at the door marked with the Enter Here arrow. The room 277 is across the hall and slightly to your right as you enter.
